PARTS MANUAL

INSTRUCTIONS

1. Open the bookmark tab.

The tab can be found on the left side panel of the Navigation pane. If it is not there, please right click and select bookmarks.

2. Scroll down the titles until you find the relevant section related to the component you are searching for. Select a drawing and then hover the cursor over the chosen name and click. A page with the part's stockcode and photo will be displayed enabling you to identify the part.

3. Alternatively, if the part name is known select the Edit tab at the top of the page and scroll down to either Find or Advanced Search, where by the name of the part or stockcode can be typed in.
